

APPENDIX - I**PAPER I – EMERGENCE OF THE MODERN WORLD****I. Social and Cultural Background**

1. **Feudal Society** -Characteristics of Societies in Europe, West Asia, India and China.
2. Political Systems – Arab, Mughal, Chinese (rings and ranches) – Ottomans.
3. Religious forms – Christianity, Islam, Religions in India and China.
4. Science and Technology – Astronomy, Mathematics, Paper and Printing – shipping and overseas Trade.

II. Transformation of Medieval Societies

1. Decline of Feudalism in Europe – Crisis in economy-peasant protests-increase in trade and commerce-crusades and their effects.
2. Voyages of discovery (Map-1) – Conquest of America, Asia and Africa – Battles for trade – growth of trade and market – commercial revolution.
3. Beginnings of Modern Science – Gun Powder, Compass, paper –early maps and cartography – Copernicus, Galileo and Newton.
4. Emergence of new Socio-cultural forms – Renaissance in Italy – Humanism – Criticism of the Society and Religion – Reformation – Art and Architecture.
5. The Enlightenment -- Emergence of modern philosophy – Hobbes, Locke, Rousseau – Descartes – Voltaire, Montesquieu – Rationalism – Physiocrats.

III European Colonialism and the World (Map - 2)

1. Establishment of colonies – Colonial rivalry of the 17th & 18th centuries – Merchant companies – from trade to politics.
2. Colonies in America, Asia and Africa (Maps – 3 & 4) – British colonies in North America – Spanish and the Portuguese in Latin America – Colonies in India, East Indies, China – African Colonies.
3. Impact of colonialism – Drainage of resources – enslavement of peoples and slave trades – export of life styles – education and technology.

IV. Emergence of Industrial Capitalism

1. From Guild system to factory system – technological changes – steam power – cool – blast furnace – iron and steel – textile industry – transport and communication.
2. Changes in agriculture – Mechanisation of agriculture – agro – industries – new methods of agriculture and artificial manures – animal husbandry.
3. Accumulation of Capital – banking – joint stock companies – Laissez Faire theory.
4. Emergence of industrial society – Working class and conditions of labour – urbanization and slums – printing and newspaper.

V. Democratic Revolutions.

1. English Revolution – Absolutism in England – Civil War and Cromwell – Restoration – The Revolution of 1688 – evolution of modern parliamentary system.

2. French Revolution – Absolutism in France – intellectual background – rise of bourgeoisie – financial crisis – Jacobins and Girondists – National Assembly – republic Directory and Napoleon.

3. American Revolution – American colonies – struggle for independence – Treaty of Paris and the rise of USA.

4. Liberation struggles in Latin America – Bolívar, San Martín and Miranda – new states.

5. Revolutions in Europe in 1848 – Nationalist movements in Italy and Germany

VI Development of Modern Sensibility

1. growth of Modern Science – Physical Science and natural Science – Darwin and theory of evolution, Einstein and theory of relativity – Quantum Mechanics – nuclear physics.

2. Social Sciences – August Comte and social physics = modern

VII Movements against Industrial Capitalism

1. growth of working class and peasant movements – anarchism, socialism, communism – growth of the socialist movement – the three internationals.

2. Russian and Chinese revolutions – experiment of socialist states.

VIII Imperialism

1. New imperialism – characteristics – Hobson and I on imperialism

2. Imperialist rivalry and world war – First world war – Treaty of Versailles – Political and economic consequences.

3. Fascism in Italy and Germany – Nature of fascist state – militarism and racism – social and cultural consequences.

4. Second World War – Struggle between fascism and democracy – post war transformation – emergence of UNO – peace movement.

IX National liberation Movements

1. Liberation movement in India – Phases of freedom struggle since 1857 – partition and independence.

2. Liberation struggles in Asia and Africa – Struggles in French Indo-China – Dutch East Indies – West Asia – Struggles in Africa – Ghana, Nigeria, Congo, South Africa.

3. Process of Decolonisation – Concept of decolonisation – Capitalism and Socialism – mixed economy – emergence of the third world – Non-Aligned Movement – fight for world peace – globalisation and its impact.

Map Study:

Note: Each map will have to be taught along with chapter

1. Voyages of Discovery

2. World map around 1700 – major colonies.

3. World map showing British colonies in America and the Portuguese and Spanish colonies in Latin America.

4. Details of early colonies in Asia and Africa – around Indian and Atlantic Ocean.
5. Map of Europe showing newly formed states of Italy and Germany.
6. Partition of Africa around 1900 – indicating spheres of influence.
7. Europe during world war I indicating the major sites of war.

Books for Study

Paper II Social Formations in India

I. Study of Social Formations in History

1. Theory of Social Formations - Definitions – theories – characteristics in terms of production, exchange, cultural, legal and state systems.
2. Social Formations in History – historical development – tribal society and pastoralism – formation of agrarian society – feudalism.
3. Formation of capitalism – capital accumulation – creation of wage labour.

II. Tribal Society in India

1. Evolution of human settlements and formation of tribal society.
2. Society and Economy of stone Age Culture – Material culture – hunting – gathering and pastoralism – from crude stone tools to sophisticated weapons. different industries.
3. Transitions to agriculture and use of metals- Origins of agriculture – growth of village settlements early discovery of metals – changes in social life.
4. Forms of expression and thought – stone age art – burial practices.

III. Bronze Age urbanism (Map 1)

1. Genesis of Harappan urbanism – stages and chronology
Pre-Harappan phase – characteristics

Mature Harappan phase – characteristics – Distribution of Harappan cities – settlement patterns and layout –

- 1. Social and Economic life of the Harappans – agriculture – crafts – inland and overseas trade – evidence for social life – modes of worship – script – attempts at deciphering the script.
- 2. Structure of Harappan Polity and ideology – various theories – empire / city state, priestly state, trader state.
- 3. End of Harapan Civilization – Evidence – various theories – climatic changes, ecological decline, changes of the course of rivers. Tectonic disturbance, migrations, invasions.
- 4. Late Harappan phase – characteristics.

IV societies in the Bronze and Iron Age

- 1. Sources on the Vedic Societies – Literature – Rig Veda and other Vedas, Vedangas, Brahmanas, Aranyakas, Upanishads – Archaeology – Pottery – Transition from copper to iron.
- 2. Structure of Rig Vedic Pastoralism – Rig Vedic society – position of women – tribal structure – tribal chief and his officers – tribal class divisions.
- 3. Political authority – ganas – ganapati – transition from ganas to janas – vidatha, sabha and Samiti.
- 4. Sastra and Yajna – emergence of the individual yajmana. Concept of Varna – emergence of chaturvarnya.

V. Formation of State and Civil Society (Map 2)

- 1. Expansion of agriculture – spread of agriculture along Ganga basin – increase in craft production – urbanization – growth of trade routes – movement of population.
- 2. Emergence of Mahajanapadas – Monarchies – Ganasanghas – royal consecration and other rituals – Causes for the rise of Magadha – features of the Magadhan state – Saptanga theory of the state
- 3. New social classes – trader – land owner – occupational groups. – Jati divisions.
- 4. Sramana Sects – break up of the tribe – social inequalities – Sramana response to brahmana ritualism – Ajivikas – Jainism – Buddhism – Tenants.

VI Mauryan and Post mauryan period (Map 3)

- 1. Consolidation of the Mauryan empire – I
Imperial organization – state control – Economic Regulations.
- 2. Expansion of agriculture and trade
Sita and Rashtra – forced labour – expansion of trade – uttarapatha and Dekshinapatha – parts of trade – overseas contact.
- 3. Asoka and his Dhamma – Political and religious context of Ashoka's Dhamma – attempts to spread dhamma – Asokan edicts – dhamma as a religious discourse – as ideology – its success and failure.
- 4. Post Mauryan states – Sungas, Kanvas and Satavahanas. Indo-Greeks – Sakas, Kushans, Parthians.
- 5. Mauryan and Post Mauryan art and architecture.

VII Polity and Society of the Guptas (Map 4)

mergence of the Guptas – Nature of Gupta polity – revenue – legal system – ideology.

Society and Economy – Varna and Jati. Economic condition – village community – trade and towns.

Classical Hinduism – Saivism – Vaishnavism – Devotional religion – Itihas – Puranas tradition.

Learning – developments in the field of science and technology – literature and art.

Socio-economic transformation towards the end of the Gupta period – political fragmentation – economic crisis – Theory of Indian feudalism and its criticism.

Society of North India 600-1200 A.D.

Localised kingdoms – Maitrakas, Mauharis, Vardhanas, kings of Bengal – Temporary integration under Harsha.

Society and Economy 600-1200 A.D

Jathi-growth of untouchability – position of women – forced labour incorporation of tribal peoples – chandalas – Nishadas – new legal systems – concept of property – crime and punishment.

Consolidation of agrarian society – growth of village community – land grants – feudalism

Decline of trade – disappearance of trade routes – decline of towns – archeological evidence of decline of towns.

3. Emergence of Rajputs.

Tribal origins of Rajputs – Rajput polity and society – revival of trade and towns – cultural development – art – architecture – literature.

X Early social Formations in South India

1. Societies in the Iron Age – Neolithic Communities – Megalithic people – Archaeological evidence.

2. State formations in Sangam Age – evolution from clan chief to community hero and king – kizhar – Velir – Ventar – Muvantar – Chola, Chera and Pandya – nalavai – Manram – Nature of war fare.

3. Geographical and social Structure in early Tamilakam- Tinai Concept – Social organization – shifting cultivation to settled agriculture.

4. Exchange and trade – Noduttal – local trade inter regional trade – emergence of Vanikar – overseas trade – reference in Sangam Poetry – evidence from Roman sources – archaeological evidence.

5. Cultural forms – festivals (Vizha), music, dance.

Society in Early Medieval South India (Map 5)

1. Formation of new states – political integration under the Pallavas and Cholas – nature of polity – Chola Administration.

2. Expansion of Agriculture and Trade – Expansion of agriculture in river valleys – brahmadaya, devadana and vellanyagai – emergence of new agrarian relations – village community – ur, Nadu, Nadu assemblies, brahmadeya village – Sabha.

Expansion of Trade – Trade corporations Ayyavole, Ainuttuvar, Valanjiyar Anchuvannam, Manigramam- currency and coinage.

3. Temple Centres – multiple functions and roles of temples – Bhakti cult and movement.
4. Growth of learning and literature – Pallava and Chola styles of art – architecture.

XI The Delhi Sultanate

1. Emergence and consolidation of the Delhi Sultanate – market control and Agrarian policy of Alauddin – Muhammad Thughlak's Experiments.
2. Economy and Society – Agriculture – Trade and Crafts – Condition of the common people – Rise and fall of Chahalgani nobility – Iqta system – Role of Ulema as law giver and politicians –
3. Sufism and Bhakti Movement
4. Cultural Developments – art – architecture – literature – music – writing of history.
5. Decline of the Sultanate.

XII The Mughal India (Map 6)

1. Emergence and consolidation of the Mughal empire
2. Evolution of revenue system – Todar Mal – Ain –I-Dahsala.
Military system – Creation of the mansabdar – rank system – zat and sawar – jagir system.
3. Economy and Society in the 17th Century – agriculture – trade – commerce – crafts – condition of the common people.
4. Akbar's Din Ilahi – Contributory factors – his concept of Sulh-kul-influence of Sufism and Bhakti on Din Ilahi.
5. Cultural Growth – Mughal architecture under Akbar and Shahjahan – Mughal painting – literature – writing of history.
6. Decline of the empire-Agrarian Crisis, Jagirdari crisis, political policies, reactionary policies of Aurangzeb.

XIII Vijayanagara and Late Medieval South India

1. Emergence of Vijayanagara – expansion – Krishnadevaraya – nature of polity – Nayaka system.
2. Economy and Society – Land tenure – revenue – agrarian system – internal and overseas trade – trade corporations – ports. Social divisions – village community – position of women – down trodden groups.
3. Cultural developments – literature – art – architecture.

XIV Transition in the 18th Century

1. Fragmentation of Mughals – growth of regional politics.
2. Changes in agriculture – trade – commercialization.
3. Impact of European Colonisation – Anglo – French rivalry – intervention in Bengal and Madras – plunder of Bengal.

Map Study

1. Locate the Harappan sites – (1) Mohenjodaro (2) Harappa (3) Chanhudaro (4) Kalibangan (5) Banwali (6) Lothal (7) Rangpur (8) Alamgirpur.
2. Location of Mahajanapadas.
3. The Mauryan Empire under Asoka and locate (1) Pataliputra (2) Taxila (3) Girnar (4) Maski

4. Gupta Empire under Chandra Gupta II and locate (1) Ujjain (2) Prayag (3) Sanchi (4) Kanōj
5. Chola Kingdom under Raja Raja and Rajendra
6. Subhas of Akbar's empire.

PAPER III SOCIAL FORMATIONS IN INDIA

The paper will deal with Indian History upto the onset of British rule in a coordinated manner. Details of political history taught in the school may be avoided, except as indicators. For this purpose, a chronological frame may be developed and introduced in the first two or three classes.

I. Study of Social formations in History

1. Theory of Social formations - what constitutes a social formation - mode of production and social formation definitions.
2. Social formations in History - essential characteristics in terms of production, exchange, cultural, legal and state systems Tribal society and Pastoralism.
3. Formation of agrarian society - feudalism general characteristics - different forms.
4. Trade and exchange - formation of capitalism forms of capital accumulation and creation of wage labour.

- 8
- Tribal Society in India (Map - 1)**
 1. Evolution of human settlements - their location
 2. Society and economy of Stone age - hunting-gathering and past in social life.
 3. Transition to agriculture and settlements early discovery of agriculture of production.
 4. Forms of expression and the tradition.
 - Bronze Age Urbanism (Map 3)**
 1. Genesis of Harappan urban culture - Harappan and Late Harappan
 2. Distribution of Harappan cities
 3. Social and economic life of Harappa - evidence for social life - mobility of the script.
 4. Structure of Harappan polity - empire, priestly state, city planning
 5. End of Harappan civilisation - nature of post Harappan culture
 - Societies in the Bronze and Iron Ages (Map 4)**
 1. Sources on the vedic society - Brahmanas, Aranyakas, Upangas, copper to iron - chronology
 2. Structure of Rigvedic purohsita
 3. Transition from gandas to tribes
 4. Political authority - Vidhata, Satra
 5. Sattra and Yajna - importance
 6. Concept of Varuna - emergence of state
 - Formation of State and Civilisation (Map 5)**
 1. Expansion of agriculture - urbanisation growth of cities
 2. Emergence of Mahajanapadas - metallurgy - environment
 3. New Social classes - Brahmins, Kshatriyas, Vaishyas, Shudras
 4. Mahajanapada Polity - conservation and other issues
 5. Sramana sects - Buddha, Jainism - Sramana response
 - Mauryan and Post - Mauryan Empires (Map 6)**
 1. Political integration of the subcontinent - expansion of the Mauryas
 2. Expansion of agriculture - Uttarapatha and Silk Route - Greece - Greek influence

II. Optional (2)

Historical Geography of India

Relevance of Historical Geography

1. Geographical factors in Indian History - Mountains and rivers - Plains - Plateau and Coastal regions - Himalayas and Indian Ocean - soil types - climatic variations - flora and fauna.
2. Geography and other social sciences
Anthropology - archaeology - environmental studies - cultural studies.

Formation of Indian Sub continent

1. Formation of continents - changes in the Earth's crust through millenia.
2. Formation of mountains and rivers in India - Himalayas and major rivers.
3. Climatic Zones in India - their formation variations in Social formations, rainfall, water resources.
4. The Coastal region - Description of the Coastal belt and its formation.

III. Ecology, settlement patterns and pre History (Map 1)

1. Distribution of pre-historical settlements geographical and ecological composition - River valley settlements of Northern India - Settlements in South India.
2. Settlement patterns - habitations - economy archaeological evidence - Madras - so an - Belan valley.
3. Narmada Valley - Transition to agriculture - river valley ecosystems - Sindhu Ganga Basin - Narmada valley - Krishna - Tungabhadra river basin - Kaveri and Vaigai rivers.
4. Diversity in technology and culture relationship with Geography. Agricultural production - North, East and South India - Slash and burn cultivation shifting cultivation - cattle keeping and agriculture - irrigation systems.

IV. Transformation of Indo Gangetic Basin

1. Occupation of Indus basin - wheat and barley - supply of metals and previous stones - inland and overseas trade, agriculture - urbanism - distribution of the cities - Resources regions and location of the cities - Harappa, Mohenjodaro, Mehrgarh Lothal.
2. Ecological transformation of the Indus valley - drying up of ghagger - desertification - climatic changes - decline of the Indusities.
3. Migrations of peoples - cemetery H culture - Thukar - Thangar cultures - post Harappan cultures in Gujarat and Punjab Haryana - problem of migration of Vedic peoples.

V. Transformation in the Iron Age (Map 2)

1. Material background - use of copper and iron - mode of resource mobilisation - mineral wealth in Eastern India - Iron implements in agriculture.
2. Urban centres in the gangetic basin - Development of craft production and exchanges - trade routes - geographical location of Mahajanapadas in resource - regions.
3. Geographical composition of Mauryan imperialism - Gangetic basin - The heartland of the Maurya State - North West, Central and South India - Indian Knowledge of regions outside India.
4. Ecological features of Ashoka's Dhamma - preservation of cattle wealth and Ahimsa - deforestation - destruction of faunal wealth.
5. Expansion of agriculture and assimilation of tribal people : Migration of people to East India and South India - Assimilation of Nishadas of Eastern India - Abhiras and Bhils - Satavahanas - South Indian Peoples.

VI. Ecological Formation of South India (Map 3)

1. Tinali - as ecozones - the geographical characteristics of Kurinji, Mullai, Palai, Marutam and Neytal.
2. Resource mobilisation and exchange - Means of livelihood and resource mobilisation - hunting, gathering, cattle herding, shifting cultivation, agriculture and fishing - exchange processes and geography. Redistribution - cattle theft and war - rise of Velir chieftains of the hills - occupation of river valleys - control of neital regions Rise of Chera, Cola, Pandya.
3. Resources and overseas trade- pearl fisheries - mountain resources - spices - marine ecology and ports of trade.

VII. Formation and consolidation of Agrarian Society

1. Food crop cultivation - movement inward - terraced cultivation and garden lands - use of labour resources - rise of village communities - modes of water use - irrigation net works - canals - tanks - state controlled water works - Sudarsana lake - water works build by the people.
2. Characteristics of village community - Caste and Tribe assimilation of tribes as Jati - rise of occupational groups - village settlements - agraharas - nucleated villages - distribution of population inside and outside the settlements.
3. Formation of towns - trade centres - religious centres - Trade routes and market centres - Viharas, temples.
4. Preservation of ecosystem - Rituals and taboos - Chaityas and Yaksha Cult - Mariamman - disease as a deity - Health practices - use of forests.

VIII. Formation of Cultural Regions (Map 4)

1. Geography as a factor in cultural diversity - cultural regions and their natural boundaries.
2. Patterns of resource use and cultural formations - ecological foundations of Rajput kingdoms, Vijayanagara and Marathas. Peasant foundations of Sikhism and other medieval cults.

3. Language, ethnicity and geography - Linguistic groups as expressions of a resources region - Malayalam, Tamil, Kannada, Telugu, Bengali and Punjabi.
- Evolution of regional identities - growth of nationalities - regional cultural communities.

Transformation of North India under Delhi Sultanate and Moghuls

1. Expansion of agriculture, trade and towns - movements of Turk - afghan population as traders and Warriors - revival of trade routes to West Asia - Rise of Sarais.
2. Irrigation - canal networks - Introduction of the Persian wheel.
3. Ecological changes under the Moghuls (Map 5) : Expansion of commercial cultivation - Cotton, Indigo, other dye stuffs, silk, metallurgy, procession of iron - expansion as a strategy of controlling resource regions of Bihar, Bengal, Gujarat.
4. Geography of 18th Century India : Fragmentation of the Moghul Empire Marathas, South Indian Kingdoms - Trade movement of people - coastal region - presence of Europeans.

British Colonialism (Map 6)

1. Constitution of British India - resource regions - areas of intensified exploitation.
2. Quest of raw materials - cotton and indigo - internal trade and export trade - drainage of resources and destruction of local handi crafts.
3. Deforestation and Plantation Economy. Colonial forest policy - introduction of new crops - coffee - tea - rubber - growth of plantation economy and changes in Eco system creation of Hill station s - marginalisation of the tribal people s- and their conversion to hired labour.
4. 'Integration' of India - Railways, Roads and Postal services Army movements and movement of resources - Rise of large ports of trade and creation of hinter - lands Calcutta, Bombay, Madras.
5. Formation of Indian Union (Map 7) : Reconstitution of provinces into states - Integration of princely states - formation of linguistic states - marginalised communities - tribal people and people of the border areas - geography of partition - Kashmir problem.

Map Study

1. Pre historic settlements in the background of geoclimatic regions. (Topography, rainfall, climatic conditions of important settlements)
2. Resource map of North India showing major mineral regions and distribution of agricultural tracts.
3. Distribution of major Veir chieftains - their malais - the regions of Pandyas, Cholas and Cheras.
4. Map of India in the 16th Century showing different cultural regions.
5. Resources In Moghul India - mineral wealth, agrarian regions.
6. Resource regions in British India around 1857 - A normal political map of India to be provided.
7. India of 1947 - Indian Union, princely states, mark separately.
