Outcome Based Curriculum
For
B.Com Blue Economy & Maritime Law (Double Main)

Undergraduate Programme
2020

Faculty of Commerce
University of Kerala
Thiruvananthapuram
Scheme and Syllabus for the B.Com Blue Economy & Maritime Law (Double Main) under Semester System (To be introduced from 2020 admissions)

The outcome based curriculum aims to equip students with knowledge, skills, values, attitudes, leadership readiness/qualities and lifelong learning. The students on completion of this programme will attain various 21st century skills like critical thinking, problem solving, analytic reasoning, cognitive skills, self-directed learning etc. The curriculum focuses on pragmatist approach whereby practical application of theoretical concepts is taught with substantial coverage of practical and field works.

The B.Com Blue Economy & Maritime Law (Double main) is intended to provide a broad framework and hence designed to address the needs of the students with Commerce and Blue Economy & Maritime Law as the core subjects of study, which is suitable for equipping them to cope with the emerging trends and challenges in the industrial and business world VIZ. preparation and interpretation of financial statements of SP, PS, JSC, etc. and awareness about Blue Economy, Logistics, Maritime Law and allied areas.

1.1 Eligibility for admission

Eligibility for admissions and reservation of seats for the First Degree Programme in Commerce shall be according to the rules framed by the University from time to time. No student shall be eligible for admission to the First degree programme in Commerce unless he/she has successfully completed the examination conducted by a Board/ University at the +2 level of schooling or its equivalent. During admission marks scored in Accountancy in the Commerce group or Economics in the Humanities group (only one) is to be added to the total marks secured by the student in plus two to arrive the total index mark.

1.2 Registration

Each student shall register for the courses in the prescribed registration form in consultation with the Faculty Advisor within two weeks from the commencement of each semester.

1.3 Duration

The normal duration of the First Degree Programme in Commerce shall be three years consisting of six semesters. The duration of each semester shall be five months inclusive of the days of examinations. Odd Semester (June-October) commences in June and Even Semester (November – March) commences in November every Year.
1.4 Programme Specific Outcomes for B.Com Blue Economy & Maritime Law

The B.com Blue Economy & Maritime Law (double Main) program enables students to attain, by the time of graduation:

- Display the knowledge of appropriate theory, practices and tools for the specification, design, and implementation
- Ability to learn and acquire knowledge through online courses available at different MOOC Providers.
- Ability to link knowledge of Commerce specifically Accounts with Bleu Economy Science and other auxiliary disciplines of study.
- Ability to pursue higher studies of specialization and to take up technical employment.
- Ability to review trends and challenges for the Maritime Industry.
- Acquaint with the contemporary trends in industrial/research settings and thereby innovate novel solutions to existing problems
- Inculcate research on various development issues and its effects on Life and livelihood.
- The ability to work independently on a substantial project and as an effective team member.

1.5 Programme Structure

The First Degree Programme in Commerce Blue Economy & Maritime Law (Double main) shall include:

1. Language courses
2. Foundation courses
3. Core Course I
4. Core Course II
5. Open Course

Language courses include 4 common courses in English and 2 courses in an additional language chosen by the student. The student shall choose any one of the following additional languages: Malayalam, Hindi, Sanskrit, French, Tamil, German, Russian and Arabic.

Foundation courses include 2 courses which are compulsory basic courses. Foundation course one aimed at providing basic education on Contemporary issues on Constitution/ Human rights and foundation course two aimed at providing basic education on Environmental Studies.

Core courses include compulsory courses in the major subject in the two mains and Open course in
the 5th semester is a non-major elective offered by other programmes in the colleges to BCom students.

The student secures the credits assigned to a course on successful completion of the course. The student shall be required to earn a minimum of 120 credits including credits for language courses, foundation courses, core courses, and open courses within a minimum period of six semesters for the award of the Degree including credit required for social service/ extension activities. The minimum credits required for different courses are given below:

Notes:

1. The open course offered in the fifth semester is an elective course for students from the disciplines other than Commerce. He/She can choose any one among the courses offered in that group as part of his/her course of study.

All courses included under Foundation Course 1, Core Course I and Open Course shall be handled by teachers in Commerce.
All courses included under Foundation Course II and Core Course II shall be handled by teachers in Economics.

1.6 Practical Sessions
Practical sessions are included for all Core Courses of B. Com Programme. This shall be on a module basis and needs to be included for at least one module where learning through experiencing has maximum relevance. Evaluation will be done internally.

Objectives
1. To impart knowledge and skills on the applications of the concepts learnt in a given context.
2. To learn by experiencing and observing
3. To document and reflect upon learning
4. To develop exhibits of case studies undertaken, analysis made, exercises done and fact finding missions.

The findings will be recorded in the Commerce Lab Record (CLR) along with the learning as the final outcomes. Based on this further assessment may be made in the form of supportive assignments, seminars, group discussions, case analysis, quizzes etc. This would hammer the learning and strengthen the presentation skills of the learner.

1.7 Industrial Visit - cum Study Tour
Study tour to be mandatory for the B.Com Programme. It should cover an organization where functional applications of concepts/ theories covered in the Programme are being practiced. The visit should be pre-planned with an objective to learn identified applications like:-
Accounting processes (Computerized, Digitalized operations)
Port/ Maritime Industry
Production/ Marketing/ Distribution/ Logistic Management
The total time to be devoted in the organization is two days out of **Five days** set aside for the tour. The outcome of the visit to be documented in a report with the following format

<table>

</table>

1.8 Social Service/ Extension activities
Students have to participate in Extension/ NSS/ NCC or other specified social service, sports, literary and cultural activities during 3rd/ 4th semester. These activities have to be carried out outside the instructional hours and will fetch the required one credit prescribed in the total credits. The coordinators of the social/Extension activities should issue a certificate stating the active participation of students with grade (90% and above activities A Grade, 80% -90% -B, 70% - 80% - C and 50% -70% -D) and the same shall be collected and submitted to the university along with Activity Participation Consolidated List.

1.9 Audit courses (zero credit)
The students are free to do additional courses (skill based, vocational courses) prescribed by the University outside the 25 hour weekly instructional period. These courses may be taken as zero credit courses.

1.10 Attendance
The minimum number of hours of lectures, tutorials, seminars or practical which a student shall be required to attend for eligibility to appear at the end semester examination shall not be less than **75 per cent** of the total number of lectures, tutorials, seminars or practical sessions.

1.11 Evaluation
There shall be Continuous Evaluation (CE) and End Semester Evaluation (ESE) for each course. CE is based on specific components viz., attendance, tests, assignments and seminars. The CE shall be for 20 marks and ESE shall be for 80 marks. The marks of each component of CE shall be: Attendance – 5, assignment / seminar –5 and test papers -10. The teacher shall define the expected quality of an assignment in terms of structure, content coverage, presentation etc. and inform the same to the students. Due weight may be given for punctuality in submission.
1.11.1 Assignments/ Seminars - Each student shall be required to do one assignment or one seminar for each course. The seminars shall be organized by the teacher / teachers in charge of CE and the same shall be assessed by a group of teachers including the teacher / teachers in charge of that course.

1.11.2 Tests For each course there shall be at least one class test during a semester. Valued answer scripts shall be made available to the students for perusal within 10 days from the date of the test.

1.12 End Semester Evaluation (ESE)
End Semester Examination of all the Courses in all semesters shall be conducted by the University. The duration of examination of all courses shall be 3 hours. In the case of the course in which Practicals are mentioned, the duration of the examination shall be 3 hours for theory and 3 hours for Practical examination.

1.12.1 Evaluation of Project - The report of the project shall be submitted to the Department in duplicate before the completion of the respective semesters (fifth semester for core course I and sixth semester for core course II). There shall be no CE for project work. A Board of two examiners appointed by the University shall evaluate the report of the project work. The viva – voce based on the project report shall be conducted individually. The maximum marks for evaluation of the project shall be 75 for the report and 25 for Viva-voce = Total 100.

1.13 Promotion to Higher Semesters
Students who complete the semester by securing the minimum required attendance of 75% and by registering for the End Semester Examination of each semester conducted by the University shall be promoted to the next higher semester.

Course Contents

**Module II: - Financing Decision** –Sources of Finance (Brief Study only)- Capital structure – meaning, designing capital structure, Optimal Capital Structure, factors determining capital structure —Capital Structure Theories – Net Income Approach, NOI, MM and Traditional – capital gearing – Types of Leverage - operating leverage, financial leverage, Combined Leverage. (18 Hrs)

**Module V: - Introduction to Financial services- Meaning-Role of financial services in Indian Financial system- developments-classification - Fund based financial services - Fee based financial services. Credit rating (concept only). (20 Hrs)**
Recommended structure for preparing question papers for ESE: Theory 60% Problems 40%

Recommended Practical
1. Collect the published financial reports of some companies and identify the capital structure, financial structure and capitalization of each company.
2. From the above reports identify the different sources of finance used by each company.
3. Collect the newspaper cuttings related to companies' dividend policies, dividend decision etc.
4. Illustrate the industry wise working capital cycle of various companies.
5. Identify the modern cash and inventory management techniques used by companies.

Books Recommended:
Core course – COB 1533: INTERNSHIP CUM PROJECT

Guideline and Report Format

A. Guideline

i. Objectives
   a. Introducing an organization, its organizational structure, functioning, and environment of the business to the students.

ii. Preparation
   a. Total length should be approximately 30 pages (page numbers indicated below are indicative).
   b. The report must be written in English.
   c. The title page of all students shall be in uniform format according to the template provided as appendix 1.
   d. The abstract need to be written in English.

The "Internship" aims at introducing the student to a range of professions and areas/functions within the company/organization. The student might be engaged in a rotation program between different functions, might be invited to participate in seminars and training programs, or might join one or more managers and accompany them in an apprenticeship mode. In the Internship the student's competencies are broadened through the activities he or she is engaged in.

Parties of Internship

- The Learner
- The Internship Coordinator: - who is in charge of identifying organisations and initiator of internship programme, communicator with the organisations for getting internships, and evaluator of the internship (internal evaluator)
- The Internship mentor: The faculty in charge of mentoring each student. All the faculties in the department shall function as mentor. The HoD shall finalise with the support of internship coordinator, the list of students to be guided and mentored by the faculty at the beginning of the second semester.
- HoD- the head of the department shall monitor the activities of coordinator and mentors to ensure the progress of internship programme.

During the internship

- Work diary: - The students should e-mail the work per day at the end of the day before 5pm. They should consult with the external mentor, should send the mail from the organization itself, if possible. Also submit a consolidation (activity report as per university guideline Performa attached)

- Submission Deadline ........day ...Month , date... 202...(year), (as per university of Kerala guidelines)
  o You need to submit two (2) printed copy of your report to the HoD, after getting it signed by the internal and external mentors.
  o Depending on what is agreed in each case; you also submit agreed deliverables to the company/organization.

Oral Presentation

The students will contact the HoD for making an appointment with the Faculty Coordinator for an oral discussion of the internship and the submitted report. It will be a Q&A session, with no requirement of formal presentation.

Company/Organization Appreciation
The representative for the company will be asked to write an appreciation statement about the student's activities during the internship, including overall performance, specific strengths, any weaknesses that the student could work on improving and estimation of learning outcomes.

**Evaluation and Grading**

Written deliverable, face-to-face discussion and company appreciation are integrated in the final grading.

**B. Indicative Structure of the Report**

In the following, very general guidelines are provided for the internship report.

1. **Title Page and Abstract**
   
   It is compulsory to use the language in standard form i.e. in British English. It is also compulsory to submit the report to the concerned internal mentor on the date prescribed. (The project guide and internal mentor shall be one and the same faculty in the department)

2. **Executive summary (2 pages)**
   
   Key learning acquired and indication of activities undertaken.

3. **Acknowledgements**
   
   Appropriate acknowledgements towards the company/organization, and other players involved in the process of the internship.

4. **Table of Contents**

5. **Introduction (3 pages)**

   Presentation of the company/organization:- Description of the main activities and processes of the company/organization. Reflections on the role and importance of the function(s) that you have worked in.

6. **Situation Analysis (4-5 pages)**

   Detailed context of the project integrating directly related literature, Internet sources etc. Depending on the context of the internship, the below can be integrated:
   - Best Practices of similar situations/problems
   - Analysis of external factors/drivers,
   - Analysis of internal factors/drivers,
   - Analysis of technology factors,
   - Market considerations,
   - Competitive considerations (SWOT, Porter…)
7. **Key Results/Key Learning (5 pages)**  
Analysis of the results obtained/learning realized in an appropriate conceptual framework derived from the situation analysis.

8. **Observations (4-5 pages)**  
- Depending on the various aspects of the company/organization that you have become acquainted with, try to make some recommendations/observations related to improvements or changes that you think would be beneficial for the company as a whole. Support them with some data (qualitative and/or quantitative).
- Implementation issues – what should the company keep in mind for successful implementation of these recommendations?

9. **Conclusion (3-4 pages)**  
- Main learning and other "strong" aspects that the internship provided. What you have learnt and what you would like to develop more in your professional future.
- Perspective making with respect to the situation analysis (conceptual framework, best practices, models…).

10. **Bibliography**  
Include references to books, articles, reports referred to in the report in the following format:  
…………… (Author/s name), …… (Year): ……………….. (Title), ……… (Publisher Address). ….. (Page No.)

Indicate interviews if appropriate (person interviewed, his/her position, and date of the interview)

11. **Appendices**  
Beware to join only material that you refer to in the report

**Text Format in the Report**  
Times New Roman 12 or similar, 1.5 line space, Margins 2.5 all around.

COB 1221: ENVIRONMENTAL STUDIES (FOUNDATION COURSE)

Instructional Hours 2                                                                                          Credits 2

COURSE OUTCOMES: at the end of the Course, the Student will be able to -

<table>
<thead>
<tr>
<th>Remember environmental policies</th>
</tr>
</thead>
<tbody>
<tr>
<td>Understand different ecosystems, environmental movements</td>
</tr>
<tr>
<td>Understand types of natural resources</td>
</tr>
<tr>
<td>Remember the causes and impacts of mining</td>
</tr>
<tr>
<td>Understand biodiversity and conservation</td>
</tr>
<tr>
<td>Understand environment pollution</td>
</tr>
</tbody>
</table>

COURSE CONTENT

Module 1: Introduction to Environmental studies: Multidisciplinary nature of environmental studies; components of environment – atmosphere, hydrosphere, lithosphere and biosphere. Scope and importance; Concept of sustainability and sustainable development. Ecosystems: What is an ecosystem? Structure and function of ecosystem; Energy flow in an ecosystem: food chain, food web and ecological succession.

Module 2: Natural Resources: Renewable and Non-renewable Resources: Land Resources and land use change; Land degradation, soil erosion and desertification. Deforestation: Causes and impacts due to mining, dam building on environment, forests, biodiversity and tribal populations. Water: Use and over-exploitation of surface and ground water, floods, droughts, conflicts over water, Heating of earth and circulation of air; air mass formation and precipitation. Energy resources: Renewable and non-renewable energy sources, use of alternate, energy sources, growing energy needs.

Module 3: Biodiversity and Conservation: Levels of biological diversity: genetic, species and ecosystem diversity; Biogeography zones of India; Biodiversity patterns and global biodiversity hot spots, India as a mega-biodiversity nation; Endangered and endemic species of India, Threats to biodiversity: habitat loss, poaching of wildlife, man-wildlife conflicts, biological invasions; Conservation of biodiversity: In-situ and Ex-situ conservation of biodiversity. Ecosystem and biodiversity services: Ecological, economic, social, ethical, aesthetic and Informational value. Environmental Pollution: Environmental pollution: types, causes, effects and controls; Air, water, soil, chemical and noise pollution, Nuclear hazards and human health risks, Solid waste management: Control measures of urban and industrial waste, Pollution case studies.

Assignment/Field work

- Visit to an area to document environmental assets; river/forest/flora/fauna, etc.
- Visit to a local polluted site – Urban/Rural/Industrial/Agricultural.
  - Study of common plants, insects, birds and basic principles of
COB 1241  Maritime Trading Systems and Security

Instructional Hours 3  Credits 3

Course objective:

Discusses about Maritime Trading Systems and its effect on the Global Economy

**Module I: Evolution of Maritime Industry**

**Module II: Maritime Trade and Trading Networks**

Principles of Maritime Trade - Building-blocks of Maritime Trade - Geography and Value Addition of Maritime Trade - Maritime Trading Networks – European Maritime Trade – American Maritime Trade – Maritime Trade of Asia – African Maritime Trade – Maritime Trade of Middle East, Central Asia and Russia, Australia and Oceania Trade Systems

**Module III: Acts Regulations and Maritime Security**

**Module III: Multilateral Organisations and Conventions**

**References**

Alan Branch Maritime Economics [2 ed.]

Athanasios A. Pallis Maritime Transport, Volume 21: The Greek Paradigm (Research in Transportation Economics)
COB 1242 Microeconomics

Instructional Hours 4  Credits 3

Course Objective:
Discusses about basic principles governing individual entities.

Module I: Basic Concepts

Module II: Consumer Behavior

Module III: Cost Analysis

Module IV: Market Structures
Market Structure- Perfect competition- Equilibrium of the firm and industry under perfect competition- Role of the time element- Monopoly- Price and output determination under monopoly- Price discrimination- Monopolistic competition- Price output determination and excess capacity under monopolistic competition- Oligopoly: features and types- Kinked demand curve theory.

References
COB 1341 **Macroeconomics**

Instructional Hours 5  
Credits 4

Course objective:

Theoretical framework and the working of an economy as a whole

**Module I: Macroeconomic Concepts**

Macro-Economic Variables – Stock and Flow Variables – Exogenous and Endogenous Variables  
– Partial and General Equilibrium – Actual GNP and Potential GNP- Net Economic Welfare  
(NEW)- Macro Statics, Comparative static and dynamics

**Module II: National Income Accounting**

**Module III: Classical and Keynesian theory of income and Employment**

**Module IV: Money, Prices and Interest Rate**

**References**

COB 1342  *Maritime Industry in India*

Instructional Hours 5  
Credits 4

Course objective:
Discusses the evolution of Maritime Trade in India

**Module I: Maritime History of India**
Indo-Roman trade relations, Indian Ocean trade, Indus-Mesopotamia relations, Silk route –  
Spice Trade – Cotton Textile and Trade - Ancient maritime history

**Module II: Middle Ages and Maritime Trade**
Role of Religion in Trade and Commerce – Trade Route and Peninsular India – Persian and Arab Trade Links – Indo-China and the Maritime Southeast Asia – Indianization of the World – Kerala as the center of Trade

**Module III: Trade during the British Era**
Trade and British East India Company – World War and Influence on Trade –  
Bombay Dockyard and Ship Building – Other Port Cities of India

**Module IV: Growth of Maritime Trade**
Independent India and Trade relations – Post Reform and Trade – Economic Reform and Trade relations – Economic Treaties and influence on Trade

COB 1441 Financial Economics

Instructional Hours 5 Credits 4

Course objective:
Introduces basic concepts and to provide comprehensive knowledge regarding the role of finance in an economy

Module I: Financial system and Financial Markets

Module II: Capital Market

Module III: Security Market Analysis

Module IV: Indian Financial System
Structure of Indian Financial System-Organization and management of Indian Stock Exchanges-SEBI - OTCEI, BSE-BOLT, SENSEX-NSE-NEAT,NIFTY, ISE - Depositories in India NSDL, CSDL- Development financial institutions -Pension and Provident Funds, National Pension system and PFRDA (Pension Funds Regulatory and Development Authority) Mutual funds- Venture capital funds- NBFIS, Chit Funds-Credit rating agencies in India-CRISIL, ICRI, CARE - International credit rating agency- Sand P-Financial sector reforms-Narasimham Committee report.

COB 1442: **International Maritime Law**

Instructional Hours 5

Credits 4

Objective: To produce industry people who can evaluate the laws and legal systems pertaining to water bodies and ports of India from a juristic perspective. On successful completion of the course, a student will enhance his/her skills pertaining to maritime contracts and understand legal issues arising in Fisheries and Marine sectors.

**Module I: Introduction to International Law**

Definition, nature and scope of International law- History and development of International Law-
Sources and subjects of International law- Succession and responsibilities of a state-Jurisdiction and territory of a state, focus on the law of the sea – UN conventions of the law of the sea-
Admiralty law in relation to common law and civil law- Common law of the sea, International sales law and carriage of goods by sea.

**Module II: International Maritime Law and Piracy**

Maritime belt, Territorial sea and Contiguous zone, Straits used for International navigation, Archipelagic states, Exclusive economic zone, Continental shelf, High sea- Admiralty and maritime jurisdiction (scope and extent)- Maritime law- Judicial personality of the ship-

**Module III: Maritime Security and Dispute Settlement Mechanism**

Introduction- Maritime agreements and security- Passage of warships, Military activities - beyond the territorial seas- International law of maritime security in monitoring the movement of ships and seafarers, Information sharing and law enforcement. Law of the sea and UN conventions- Means of the dispute settlement- International Tribunal for law of the sea- Advisory jurisdiction.

COB 1541  
Dynamics of Economies

Instructional Hours 4  
Credits 4

Course objective:
Enabling to comprehend and critically appraise current issues and problems of India and Kerala.

Module I: Dynamics of Demography
Demographic Trend and Pattern in India and Kerala- Changes in Major Demographic Indicators

Module II: Development Strategies

Module III: Sectoral Dynamics

Module IV: Development Issues

COB 1542 *Introductory Econometrics*

Instructional Hours 4                                    Credits 3

Course objective:
Discusses the importance role played by the traditional fishermen and its effects on the economy

**Module I: Econometrics and Statistical Inference**

Nature and scope of Econometrics, Normal distribution; chi-sq, t- and F- distributions, Estimation of parameters, Testing of hypotheses, Defining statistical hypotheses, Distributions of test statistics, Testing hypotheses related to population parameters, Type-I and Type-II errors; Power of a test, Tests for comparing parameters from two samples.

**Module II: Simple Linear Regression Model**

Estimation of model by method of ordinary least squares, Properties of estimators, Goodness of fit, Testing of Hypotheses, Scaling and units of measurement, Confidence intervals, Gauss Markov Theorem, Forecasting

**Module III: Multiple Linear Regression Model**

Estimation of parameters, Properties of OLS estimators, Goodness of fit- R^2 and Adjusted R^2, Partial regression coefficients,

**Module IV: Violations of Classical Assumptions and Specification Analysis Consequences,**
Detection and Remedies, Multicollinearity, Heteroscedasticity, Serial Correlation, Omission of a relevant variable, Inclusion of irrelevant variable, Tests of specification

Objective

To create industry experts who are skilled and well versed with technologies and procedures of Maritime Shipping, International Trade & Export Import policies. This study gives an insight to latest trends in Logistics, Governing Bodies and a synopsis about how to start an export business, the licensing authorities, arranging finance and other procedures involved.

Maritime Transportation has been and still remains the backbone of global trade. Shipping involves planning and identifying the most profitable trade routes around the world, the volume of cargo available on these routes, the number of ships that must be employed on these routes, the ports that this service must call in order to maximise business, the transit days that a ship will take for a round trip, the cost per voyage including operational costs, port costs, fuel costs, the man power required.

International trade is the exchange of capital, goods, and services across international borders or territories because there is a need or want of goods or services. In most countries, such trade represents a significant share of gross domestic product (GDP). International trade, economic transactions that are made between countries. International trade transactions are facilitated by international financial payments, in which the private banking system and the Central banks of the trading nations play important roles. International trade between different countries is an important factor in raising living standards, providing employment and enabling consumers to enjoy a greater variety of goods.

Module 1: Evolution & Scope of Maritime Shipping

Module 2: International Trade Procedures

Module 3

COB 1641  **International Business and Trade**

Instructional Hours  5  
Credits 4

Course objective:
Demonstrates how international business variables affect the trade process.

**Module I : International Business**
Definition international business, the rise of globalization, U.S. position in international trade, Theories of International Trade & Investment, § the advantages of specialization, the concept of comparative advantage

**Module II : International Monetary System and Financial Markets**
Role of the International Monetary Fund (IMF), Fixed and floating exchange rates, Impact of European currency (EURO), calculate foreign exchange rates, foreign exchange market functions

**Module III : Economic Integration and Investment Polices**
Levels of economic integration, Various arguments of economic integration, Organization of the European Community, Foreign aid in international trade and investment, Goals and function of GATT and NAFTA, Regulation of international business behavior, Foreign Corrupt Practices Act, International law in the conduct of international business

**Module IV : Cultural Challenge and International Business**
The role of culture in international business, identify various elements of culture various entry strategies used by firms to initiate international business activity, indirect exporting and importing, advantages and disadvantages of licensing, international logistics, free trade zones, Selection of Target Market, pricing strategy for export items, analysis for estimating market potential, need for changes in HR and global differences

COB 1642: Maritime Logistics

Instructional Hours 4               Credits 3

Course objective:
Introduces students to vital logistics functions comprising distribution, transportation, material handling and storage system and to give them an understanding of basic logistics principles to ensure competitive advantage in the industry

Module I: Maritime Logistics
Introduction to Logistics-Logistics and Competitive Strategy-Competitive advantage through logistics- Gaining competitive advantage through logistics- marketing and logistics interface-Customer service-Customer service and customer retention- Benchmarking the logistics process-Mapping and Managing the supply chain Developing the logistics organization-Logistics as the vehicle for change

Module II: Elements of Port Management
Definition - Types and Layout of the Ports – Main functions and features of ports Main services - Ports and their stakeholders – Port Operations - Berths and Terminals - Pre- shipment planning - Cargo security - Phases of port development - Ship development and port development Regulatory Framework for Ports - Port ownership structure - Port ownership structure in India.

Module III: Elements of Shipping Management
Functions of Shipping - Types of ships - Ship’s tonnages (GT, NT, DWT) – Cargo carrying capacity. Ship owners, operators and managers, Ship Registration, Ship Insurance - Ship management cost function - Budget preparation – Account processing and reporting, Ship Cargo - Crew Management and Ship Manager’s Legal Relations

Module IV: Shipping Economics
Shipping Economics-Sea Transport and the Global Economy- Shipping Market Cycles - Shipping cycles and shipping risk- shipping Market Model- Four shipping markets-Cash flow and the art of survival of shipping company- Classification of costs - Financing Ships, Shipping Companies – Risk and Returns

References:
Cob: 1644: **Project: Analysis of Regional Development Issues**

Credits 4

Objectives

- Enable them to develop their inert skills
- Encourage individual initiative for enhancing their potential
- Empower them to develop entrepreneurial skills

Students can select one of these options which is mandatory for the successful completion

Options I

Undertake research study on relevant Regional Development Issues. The researcher is expected to publish it as an article/research paper in any print media or any other media of their choice.

Options II

Associate with any non-governmental organization or any institution or department involved in the welfare of the downtrodden sections of the society under a meaningful research project.
