- Application process starts : 7th March 2019
- Application process ends : 21th March 2019
- Beginning of the course : 29th March 2019
- Duration of the course : 28 days

About the course

NEXTFOOD- 'Educating the next generation professionals in agrifood systems', employs a case-based action research to develop relevant and effective education and training programs for a transition to more sustainable agrifood systems, and to generate new knowledge needed for sustainable development through research via fabrication into application. The Certificate Course on 'Agroecology- Action Research and Education' is a case under the NEXTFOOD project which envisages to inculcate capabilities in action-based learning in Agroecology by fostering knowledge and skills for analyzing and developing sustainable agroecological models. The aim of the course is to equip the students with core competencies to address the trans-disciplinary challenges of sustainable development based on action reflection methodology. Certification will be based on continuous and comprehensive evaluation.

How to apply

Candidates who possess a post graduate degree or equivalent qualification in disciplines including botany, zoology, agricultural sciences, environmental sciences, public health, commerce, management, economics, sociology and education can submit application to Dr. Manju S.
