TECHNICAL SPECIFICATIONS of Automated Flash Chromatography purification system

- Compact bench top model.
- Capable of computer controlled delivery of independent four solvents inlet for binary gradient, linear mode, isocratic and step Gradient.
- Solvent flow rate: 5 to 70 mL/min or above.
- Pumping system with back pressure of 10 bars/145 psi or more.
- Variable Wavelength UV Visible Detector range from 200–800nm or better.

Supply the Stand alone ELSD detector with the following features:

- Front Panel control to select the parameters
- Pre set touch keys to select the Normal Phase & Reverse Phase Chromatography by pressing front panel key to set the required temperature for the operation.
- The Detector should have Analog output signal to connect other chromatography systems as & when requires other than Flash System.
- Automatic fraction collection. Fraction tracking facility with peak to tube graphical interface.
- Touch screen controlled software for operation of the machine.
- System Should be supplied with Racks for 18x150 mm test tubes with minimum to collect 120 fractions or above

- The system should be with Safety features like Rack Sensors (automatic stop of flow if collection tray is full or not in place) and over Pressure detecting sensor.

- The System should be capable to use from 4 gm to 300gm disposable pre packed Silica / Reverse Phase Columns.
- Flexibility of using empty self-packing glass columns/ refillable Polypropylene column and pre packed Silica columns having different dimensions
10 numbers of each 12-14g, 40g and 120gm pre packed refillable Silica column, 5 numbers of each 12-14gm and 50gm C18 columns to be supplied along with the system as a standard item.

Also supply the Refillable Glass Columns to hold the adsorbent of 40gm 120gm to be added along with system.

- The system should have Flexibility of using any make Flash columns available in the market and necessary adapters or holders should be provided
- Automatic method set-up based on Inputting TLC Rf value.
- Operating voltage : 230V/50Hz
- Should be supplied with an appropriate UPS with battery
- One year replacement warranty.
- Three year onsite warranty after the One year replacement warranty
- AMC after warranty period.

General Conditions:

1. The tender shall be submitted in the two bid viz. Technical Bid and Financial Bid. Only those qualified in technical bid will be eligible for participating in financial bid. A presentation regarding the technical specification and item to be supplied shall be done before the technical evaluation committee if requested.

2. The bidder should be a manufacturer or their dealer specifically authorized by the manufacturer to quote on their behalf for this tender as per Manufacturer Authorization From and Indian agents of foreign principals, if any, who must have designed, manufactured, tested and supplied the equipment(s) similar to the type specified in the “Technical Specification”. Such equipment must be of the most recent series/models incorporating the latest improvements in design. The models should be in successful operation for at least one year as on date of Bid Opening.
3. **Compliance Statement:** Along with the technical details provide a tabular column indicating whether the equipment quoted by you meets the specifications by indicating 'YES' or 'NO'. If 'YES', support the claim by providing original brochures. **Vendors should provide clear brochures/data sheets about the equipment and it's working. Also include adequate proof for the claim regarding the performance.**

4. **Reference:** Names of Institutes with contact person and telephone/ email where similar equipment supplied by you in India [Preferably South India] shall be mentioned in the bid.

5. Incomplete & conditional tenders and tenders received after the due date will be summarily rejected without assigning any reasons thereof.

6. The price should be inclusive of all taxes, duties, transportation, insurance, installation etc. Nothing extra will be paid in addition to the quoted rate. Any amount in Indian rupees for installation, commission, labour, spares, service etc shall be entered in item 2 of BoQ.

7. Payment Terms: 90% payment shall be made through irrevocable LC on presentation of complete and clear shipping documents and balance 10% of the amount shall be released after the receipt, installation commissioning and acceptance of the equipment.

8. Validity of tender: Tender submitted shall remain valid at least for 120 days from the date of opening the tender. Validity beyond 120 days, from the date of opening of the tender shall be by mutual consent.

9. **Every tenderer should submit an Earnest Money Deposit (EMD) of Rs.40,000/- or equivalent Bank Guarntee valid upto the installation of the equipment.**

10. **Every tenderer should submit Tender fee of Rs. 2500/-**
11. Delivery and installation: Proposed delivery schedule should be mentioned clearly. Delivery and installation and training (one week) should be made at the Department of Biotechnology, University of Kerala, Kariavattom campus, Trivandrum without extra cost. University of Kerala will provide customs duty exemption certificates if required.

12. Service facility: Supplier should mention their details of service setup and manpower in Thiruvananthapuram who are responsible for after sales support.

13. The model number, make, and a printed literature of the product shall submit positively.

14. In case of any dispute, the decision of the University authority shall be final and binding on the bidders.

15. The undersigned reserves the right to reject any or all of the tenders received without assigning any reason thereof.

16. If any component is found to be defective during the warranty period, the vendor has to replace the defective item immediately at their own cost.

Documents to be Uploaded

1. Signed Compliance Matrix
2. Detailed Technical Brochure
3. Undertaking of support for next 10 Years
4. BoQ
5. DD/Hard copy of Bank Guarantee if opted
