Corrigendum

In our quotation notice dated 17-01-2013 for vacuum coating unit, there are two corrections:

1) In the description part of the item, the requirement “air cooled turbo molecular pump (nearly 3000 Lit/sec pumping speed)” is modified as “air cooled turbo molecular pump (nearly 300 Lit/sec pumping speed)”.

2) Warranty requirement: Minimum warranty for 2 years required for the complete vacuum coating unit.

There is no change in the last date of submission of quotations.
